Congratulations to Beachfront Design: Honored as TOP 10 by Med Tech Outlook

UroDev extends congratulations to Beachfront Design, which was recently named a Top 10 Medical Device Design and Development provider by the industry-leading magazine Med Tech Outlook.

Led by Kevin Arnal, UroDev's key research and development partner, Beachfront Design specializes in assisting clients with all aspects of product development, from design and prototyping to testing, pre-clinical studies, and scale-up for commercialization.

"Our mission is to improve the lives of patients by meeting the needs of our clients through expert consultation," says Arnal, Founder and Principal of Beachfront Design, quoted in the September 2022 Med Tech Outlook cover story.

With a primary focus on urology, cardiopulmonary, urogynecology, orthopedic, and minimally invasive therapies, Arnal's team is uniquely equipped to lead the successful development of UroDev Medical's Connected™ Catheter system.
